SUMMARY

Fullstack Web3 developer and co-founder of The Executioners, a Web3 media & marketing agency working with ecosystems, communities, and startups across India. Experienced in building scalable web applications, managing ecosystem growth, executing community-led initiatives, and collaborating with Web3 projects through content, events, and developer-focused campaigns.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Solidity, Rust, C++, PHP

Frontend: React.js, Next.js, Tailwind CSS, GSAP, Framer Motion

Backend: Node.js, Express.js, FastAPI, Prisma, MongoDB, PostgreSQL

Web3: Solidity, WAGMI, Ether.js, Web3.js, Anchor, Wallet Integrations, Smart Contracts

Tools: Git, GitHub, Docker, Linux

EXPERIENCE

The Executioners

India

Co-Founder & Web3 Operations Lead

2021 – Present

- Built and scaled a Web3 media & marketing agency working with communities and ecosystems across multiple cities in India.
- Collaborated with projects and communities including Stellar, EigenLayer, Polkadot, Decentralized Den, USDT Marketplace, IndiGG, Game of MAVIA, Agents Clan, and Bhopal DAO.
- Managed content production, event coverage, ecosystem partnerships, and community-led campaigns for Web3 projects.
- Attended and contributed to major Web3 events including ETHDelhi, India Blockchain Week, and Solana Breakpoint Abu Dhabi.

Decentralized Den

Remote

Core Team - BD, Marketing & Web Operations

July 2025 – December 2025

- Handled business development, social media growth, ecosystem outreach, and user onboarding for a Web3 stay-booking platform focused on major crypto events.
- Contributed to website development, platform operations, and community engagement while scaling brand presence across social platforms.
- Managed Web3 villa and stay operations for events in Delhi, Bangalore, and Abu Dhabi, coordinating guests, bookings, and ecosystem partnerships.

VR Consulting

Noida, Uttar Pradesh, India

Summer Intern

June 2024 – August 2024

- Assisted in developing and maintaining responsive web applications using HTML, CSS, JavaScript, and PHP.
- Collaborated with the design team to improve UI/UX and implement responsive frontend components.
- Worked with Git and GitHub for version control while participating in agile development workflows and team stand-ups.

PROJECTS

LifeOS | *React Native, Next.js, TypeScript, MongoDB, Automation*

- Building an AI-powered personal operating system focused on autonomous planning, adaptive scheduling, and productivity automation.
- Designed multi-agent workflows with memory persistence, context-aware execution pipelines, and intelligent task management systems.
- Integrated automation workflows for reminders, scheduling, routines, and adaptive execution tracking in real time.

Stoken - Crypto Staking Platform | *Solidity, React, Ether.js*

- Developed a decentralized staking platform enabling token staking, reward distribution, and wallet-based Web3 interactions.
- Implemented smart contract logic, wallet integrations, staking workflows, and responsive frontend architecture for seamless UX.
- Focused on secure Web3 transaction handling and scalable frontend design for production-ready blockchain applications.

Koziza Website | *Next.js, GSAP, Framer Motion, MongoDB*

- Developed a custom aesthetic eCommerce and portfolio platform for a digital artist with immersive responsive UI/UX.
- Built dynamic artwork showcasing, artwork sales workflows, and storefront management with responsive frontend experiences.
- Implemented an admin dashboard enabling real-time management of products, website content, and platform operations.

Decentralized Den | *Next.js, Wagmi, MongoDB, Prisma ORM, Wallet Connect*

- Worked as part of the core team to build a Web3-based villa and stay booking platform for major crypto events.
- Developed responsive frontend interfaces, wallet integrations, crypto-native booking workflows, and dynamic user onboarding systems.
- Built admin-side operational features for managing stays, bookings, users, and ecosystem-related platform activities.

ACHIEVEMENTS

Web3 Ambassador Programs: Selected as an official ambassador for Stellar, Game of Mavia, and IndiGG through active ecosystem participation, community contributions, and Web3-focused content initiatives.

Web3 Ecosystem Growth: Through The Executioners, helped scale Web3 brands, communities, and campaigns by generating millions of social media impressions and views through content production, event coverage, ecosystem marketing, and community-driven engagement strategies.

Global Web3 Participation: Attended and contributed to major Web3 events including Solana Breakpoint Abu Dhabi, ETHGlobal New Delhi, India Blockchain Week, and India Blockchain Tour while connecting with founders, developers, creators, and global blockchain ecosystems.
